## The Profile

*Highly motivated and rigorous Computer Engineering student and independent developer. Driven by the pursuit of continuous optimization, elegant logic architectures, and fluid full-stack integration. Possesses a proven capacity to interpret complex technical challenges, transform abstract feedback into precise mechanics, and architect pristine software engines.*

## Selected Architectural Projects

**Independent Software Developer & Programmer** — *Jan 2020 – Present*
*Bespoke Systems Development* — *Azzate, Italy*

- Conceptualized and deployed sophisticated modular desktop and web software ecosystems, balancing complex micro-logic operations with refined, responsive user interaction layers.
- Maintained deliberate agile iteration phases, curating architectural stability through structural reviews and feedback execution.

**Hardware Task Scheduler** — *VHDL / Digital Logic Synthesis*

- Built, simulated, and validated a digital task coordination core mapped cleanly at the Register Transfer Level (RTL).
- Implemented highly harmonious behavioral state machines to govern micro-timing sequences and synchronization flows.

**Movehex Algorithmic Engine** — *C / High-Performance System Architecture*

- Authored a high-fidelity path-calculation framework engineered exclusively for immediate vector processing across dynamic hexagonal grids.

**Automaton Designer** — *C# / Interactive Interfaces*

- Visual ecosystem for Finite State Automata (FSA) simulation, mapping intricate computational principles into fluid user interfaces.

**Galaxy Trucker** — *Java / Structural OOP*

- Programmed a clean multiplayer adaptation of the detailed tactical tabletop board game, incorporating strict Object-Oriented paradigms to gracefully orchestrate vast rule variations and mutations.

**Schmolax Metadata Editor** — *Python / Python Automation Core*

- Crafted a minimalist pipeline for rapid batch processing and metadata injection across uncompressed audio assets.

**Crawling-Typer Node Package** — *JavaScript / Open Source Software Distribution*

- Designed and published a refined typography utility on NPM to introduce highly stylized character orchestration into digital interfaces.

**Margot Color Converter** — *Python / Color Overlapping and Conversion*

- Color converter for DTG (Direct To Garment) shirt design printing.

## The Technical Focus

| | |
|---|---|
| **Languages of Choice:** | C, C#, Java, JavaScript, Python, VHDL, HTML, CSS, Unreal Blueprints |
| **Environments & Toolkits:** | Unity Engine, Node.js, Git, Version Control Systems, Visual Studio Suite |
| **Core Proficiencies:** | RTL Design, Finite State Modeling, Object Architecture, Data Extraction |
| **Creative Media:** | Adobe Premiere Pro, Adobe Photoshop Suite |

## Academic Foundations

**Master Polytechnic University of Milan** — *Milan, Italy*
*Graduate Studies in Computer Engineering* — *Sep 2026 – present*

- Selected Curricula: Human Computer Interaction Design and Extended Realty

**Bachelor Polytechnic University of Milan** — *Milan, Italy*
*Undergraduate Studies in Computer Engineering* — *Sep 2022 – June 2026*

- Selected Curricula: Engineering of Computing Systems

**Galileo Ferraris Scientific High School** — *Varese, Italy*
*High School Diploma – Applied Sciences Section* — *Sep 2017 – Jul 2022*

## Exchanges & Commitments

- **PoliTalks (Ep. 40):** Invited guest contributor.
- **Reply Challenge Hackathon:** Participated in Reply's AI Challenge.
- **DevFest Milano 2024:** Took part in various Google seminars.

## Additional Work Experience

**Keeper** (Private Estate, Varese) — *Jan 2025 – Present*
**Chef & Catering Staff** (Fun Art Production, Milan) — *June 2024 – Present*
**McDonald's Crew Member** (McDonald's Italy) — *Nov 2023 – Aug 2024*

*Maintained rigorous personal time management, high-stress adaptability, and cross-functional operational precision within dynamic, immediate environments while actively managing a demanding engineering academic workload.*

## Languages

**Italian:** Native · **English:** C2 Proficient · **Romanian:** C2 Proficient · **Spanish:** A1 Limited

*I authorize the processing of personal data contained in my CV pursuant to art. 13 of legislative decree 196/2003 and art. 13 of EU regulation 2016/679 on the protection of individuals with regard to the processing of personal data.*
